SUMMARY

Backend-focused third-year software engineering student with experience building .NET applications using clean, layered architecture. Strong foundation in backend development and problem-solving. Seeking a software development internship to contribute to real-world projects and continue to real-world and continue growing as a backend developer.

TECHNICAL SKILLS

- **Languages:** C#
- **Frameworks:** ASP.NET Core, Entity Framework Core, SignalR
- **Databases:** SQL Server
- **Architecture & Concepts:** Clean Architecture, Layered Architecture, RESTful APIs, CRUD, Authentication, Authorization, Validation
- **Tools:** Git, GitHub

PROJECTS

Employee Management System API

- Developed an employee management API using ASP.NET Core with a clean, layered architecture
- Implemented full CRUD operations for employees, including role and department management
- Applied authentication, data validation, and DTO-based communication using Entity Framework Core

Bank Management System API

- Developed a banking system API using ASP.NET Core with a clean, layered architecture
- Implemented core financial operations including account management, deposits, withdrawals, and inter-account transfers
- Designed secure transaction workflows and authentication logic with strict business rule validation
- Built data access and validation layers using Entity Framework Core and DTO-based communication

Chat System API

- Developed a real-time chat backend using ASP.NET Core and SignalR to enable instant user-to-user messaging
- Designed and implemented a clean, layered architecture separating API, business, and data access layers
- Built user CRUD operations and real-time message handling using DTO-based data transfer
- Applied data validation and business rules with Entity Framework Core and SQL Server

EDUCATION

BSc in Software Engineering (3rd Year Student)

Istanbul Nişantaşı University — Istanbul, Türkiye

EXPERIENCE & ACTIVITIES

- Leader, Nişantaşı Blockchain Club — organized technical events and promoted blockchain literacy
- Volunteer Web Developer, ESN Nişantaşı — maintained the club's web application

LANGUAGES

Turkish — Native English — Advanced
